**88 Positive Networking® Tips**

This is a handy guide to the top networking tips of positive networkers and leaders. It is based on the best selling book, *WORK THE POND!* Use the Power of *Positive Networking* to Leap Forward in *Work and Life* by Darcy Rezac, Judy Thomson and Gayle Hallgren-Rezac.

*"Successful leaders and achievers have understood the power of networks since the beginning of time, but few people like doing it and even fewer are good at it. So what does that mean? It means there is room at the top. It's certainly not crowded—and, as you will discover, it is not all that difficult to get there. Those who understand the power of positive networking know that great networking skills can be learned by anyone."*
